

Search and Rescue

The Bouvier des Flandres has the agility, versatility, structure, endurance, temperament and independent thinking to excel in SAR.

There have been Operational SAR Bouviers cross-trained in air scenting, tracking/trailing, cadaver, water search, and disaster.

The incredible versatility of the right Bouvier makes this an exceptional dog for SAR, an activity that requires an animal who can solve problems independently.

Carting

Draft work is one of the many fun activities you can do with your Bouvier and, after you and your dog learn to cart, there are many things you can do together.

Draft work can be very helpful in the yard, carrying plants and compost to the garden, pulling a downed tree limb to the brush pile, taking the trash to the street.

You can enter parades, give children rides, pull your equipment into the dog shows, carry your cooler to a picnic.

Other Bouvier Activities

One of the strengths of the Bouvier des Flandres is its versatility. Bouviers are also used in the following work:

- Fly-ball
- Therapy
- Tracking Police Service Dogs
- Personal Assistance Dogs

What is NAWBA

The North American Working Bouvier Association is a non-profit organization that was established to preserve, promote and exhibit the working character of the Bouvier des Flandres on this continent. NAWBA promotes and encourages training of the Bouvier that is consistent with its heritage. It also encourages breeding of the working Bouvier.

In addition to working trials, NAWBA offers European-style conformation events.

Join us

Perks of NAWBA membership include:

- Journal subscription
- Mentor program
- Competitions
- Working breeder contacts
- Club store

But most of all you get that great feeling of supporting the breed of dog that you love, along with the support of like-minded people.
